

Synergis Engineering Design Solutions Offers Customers Deeper Focus on Manufacturing and Building/Infrastructure

Division Appoints New Industry Solutions Directors

Quakertown, PA, August 16, 2005 – Synergis Technologies® Engineering Design Solutions Division announced today the appointment of Mark Mahovich and Peter Gehring as Solutions Directors for the Manufacturing and Building/Infrastructure teams, respectively. Each industry has its own unique set of criteria and challenges. These new positions align with the Division's mission to deliver solutions, technical expertise, and resources to increase customers' productivity and profitability in their specific industries.

With more than 17 years in the Manufacturing industry, Mark Mahovich, Autodesk Inventor Certified Expert and Autodesk Manufacturing Solutions Implementation Certified Expert, has been chosen to lead the Manufacturing Solutions team. Joining Synergis in 1998 as a Mechanical Applications Engineer, Mahovich was promoted to Director, Engineering Design Solutions in 2001. To focus all his efforts on the Manufacturing industry, Mahovich accepted the position of Director, Manufacturing Solutions. During his tenure at Synergis, Mahovich has consistently demonstrated his ability to assist customers in becoming successful with the Autodesk Manufacturing solutions, while leading a team of Design Applications Engineers with proven and measurable technical expertise.

Bringing 18 years of industry expertise to the position, Peter Gehring, Autodesk Architectural Desktop Certified Expert, has been selected to spearhead solutions growth in the Building and Infrastructure markets. Over the past 4.5 years at Synergis, Gehring's dedication and passion for learning new technologies and sharing his knowledge with customers has made him an invaluable resource to both Synergis and customers.

"Mark and Peter are uniquely qualified with exceptional technical expertise and a customer-focused mindset, earning them an outstanding reputation for providing customized service and excellent solution support," said David Sharp, president, Synergis Technologies. "With these new positions in place, customers will realize an even deeper industry focus on solutions and support to help them obtain increased profitability and improved productivity."

About Synergis Engineering Design Solutions
