

Autodesk names Synergis Technologies Premier Solutions Provider

Delivers Highest Level of Service and Expertise to Mid-Atlantic Manufacturing customers

Quakertown, PA, April 6, 2005 – Synergis Technologies Engineering Design Solutions Division announced today its selection as an Autodesk Premier Solutions Provider (PSP) for Autodesk manufacturing solutions. The few Autodesk Value Added Resellers (VAR) that have achieved the prestigious PSP designation have demonstrated an ability to implement solutions, offer a consistent, high level of technical expertise and knowledge of their customer's business, and exhibit a phenomenal commitment toward customer service. Synergis has been selected as a Manufacturing Specialist out of its Quakertown, Pennsylvania headquarters.

"Premier Solutions Providers have proven and measurable technical expertise in a specific industry or unique business," said Steve Blum, vice president of America's Sales at Autodesk. "By providing complete solutions, Synergis customers maximize their return on investment in Autodesk software solutions."

"Synergis is uniquely qualified to provide complete solutions to manufacturing clients in the mid-Atlantic area. Our approach to the entire manufacturing process and the management of critical manufacturing design data is evidenced through our proven processes, our highly trained and knowledgeable people, and the exceptional solutions we offer," said David Sharp, president, Synergis Technologies. "With this new certification from Autodesk, we are further differentiated in this competitive market, and we are proud to have been chosen as 'the best of the best'."

Autodesk, Inc awarded this special designation to Synergis Technologies as a result of its loyal customer base and its proven ability to assist customers in becoming successful with the solutions Synergis Technologies represents. Its dedicated manufacturing solutions team consists of three Autodesk Inventor Certified Application Engineers, as well as five expert manufacturing account representatives who work with customers to address their needs at any part of the manufacturing process – be it designing, managing, and/or sharing data.

Synergis' Service Surpasses Industry Standards

Attaining the Top Autodesk Manufacturing Reseller in the Eastern Region in 2004, Synergis combines 19 years of experience servicing customers through a customer-focused staff equipped with extensive industry knowledge, earning them an exceptional reputation for providing customized service and excellent solution support.

Supporting Autodesk software solutions through Professional Services designed to assist customers in their technical, process, and implementation needs, Synergis' Autodesk Certified Implementation Experts and dedicated certified technicians customize comprehensive plans to complete each task/project with minimal impact on current design efforts. Customers have consistently realized increased profitability and improved productivity by teaming with Synergis.

Synergis Technology Expo

As a commitment to its loyal customer base, Synergis has announced its first annual Technology Expo being held on June 9, 2005 at the Fort Washington Expo Center, 1100 Virginia Drive, Fort Washington, PA 19034. Learn about the all new 2006 Autodesk solutions and uncover skills to help you work more efficiently and effectively in over 30 breakout sessions for Manufacturing, Building Solutions, Government, Infrastructure, Data Management, and Education. For more information and to register, visit www.synergis.com or call 800-836-5440.

Synergis Manufacturing Application Engineers Achieve Autodesk Certified Inventor Expert Status

Underlining its strong expertise in the manufacturing space, Synergis' staff of Manufacturing Design Applications Engineers has successfully passed the rigorous standards established by Autodesk to become official Autodesk Inventor® Certified Experts. Each Application Engineer demonstrated a full breadth of knowledge of Autodesk Inventor software during the thorough, four-hour hands-on and written examination tests.

Continuing to provide the most technically sound advice and highest levels of service possible, Synergis' Design Applications Engineers provide onsite, customized training in addition to hands-on classroom training at five convenient locations in the Mid-Atlantic region. Offering a unique value, Synergis' CAD IQ skills assessment establishes a benchmark for understanding end user proficiency enabling Synergis Application Engineers to develop a highly customized course for individuals, advancing users to new levels with their solutions.

About Synergis Engineering Design Solutions

Synergis' Engineering Design Solutions, an independent division of Synergis® Technologies, Inc, is a leading Autodesk Solutions Provider in the Mid-Atlantic region and Autodesk® Value Added Reseller for Manufacturing, Infrastructure, and Building Design Solutions. The Engineering Design Solutions Division provides companies in Manufacturing, Government, AEC, and related industries the best quality Autodesk software, training, professional services, and support to ensure their maximum productivity, competitive business advantage, and return on investment. As an Autodesk® Authorized Training Center, Synergis provides onsite customized and classroom training at five convenient locations, taught by Autodesk Certified Experts.
