**Synergis Engineering Design Solutions' Swain and Frederick to
be Session Speakers at Autodesk University**

***Synergis offers early access to AU registration, including company training
sessions: 'Power Dimensioning: The Infomercial' and 'Vault in Civil 3D'***

Quakertown, PA, July 31, 2007 — Synergis® Engineering Design Solutions, a division of Synergis Technologies, Inc., today announced that computer aided design (CAD) experts, Jim Swain, a Synergis Engineering Design Solutions manufacturing solutions engineer, and Bill Frederick, the Synergis infrastructure solutions technical team leader, were selected from a pool of 1200 other contenders to speak at Autodesk University 2007 at the Venetian Hotel Conference Center in Las Vegas, November 27 - 30th.

Frederick, who has more than 15 years of experience using AutoCAD and Autodesk civil applications, will lead the session, "Using the Vault in Civil 3D." The 1.5 hour session will discuss the available methods to collaborate data in a multi-user environment for design professionals with a civil and geospatial information systems (GIS) focus who want to boost their knowledge of Vault, Data Shortcuts and XReferences within AutoCAD Civil 3D. Currently, the session (CV104-2) is scheduled for November 27, 10:00 a.m. – 11:30 a.m. Participants should check for room assignments closer to the date of the conference.

Swain, who boasts more than 20 years of CAD experience in the manufacturing industry and is a regular presenter at Autodesk University, will provide an in-depth look at AutoCAD Mechanical's power dimensioning tools. Mechanical engineers and designers who want to become familiar and productive with the latest Autodesk

design tools shouldn't miss this session. During registration, select session MA215-3, "Power Dimensioning, The Infomercial," scheduled for November 28 at 3:30 p.m.

While registration for the conference doesn't officially open to the public until August 14th, as a Gold Sponsor of Autodesk University, Synergis Engineering Design Solutions is offering its community of customers and prospects access to registration starting August 7th, if they use the unique registration code GCHSYN when registering for the conference at <http://www.autodeskevents.com/au2007>. Early registrants will beat the rush and have their pick of classes, which fill up quickly. In addition, registering using the Synergis Engineering Design Solutions code will gain participants an exclusive invitation to the company's reception, where attendees can talk one-on-one with key Autodesk and Synergis experts.

"We are delighted our Synergis experts have been recognized for their deep knowledge of Autodesk software and solutions. Nothing satisfies us more than once again, being able to share with the broader Autodesk University audience what our customers get from us day-in and day-out—great training, deep product understanding, and an amazing service-oriented approach," said David Sharp, President and Chief Executive Officer of Synergis Technologies. "Jim Swain and Bill Frederick will add positive value to those who sign up for their sessions at AU."

Synergis Engineering Design Solutions will have a help desk in the Autodesk registration area during the conference. Conference attendees can use the booth to connect with Synergis Engineering Design Solutions experts for answers to product-related questions.

About Synergis Engineering Design Solutions

Synergis Engineering Design Solutions, an independent division of Synergis[®] Technologies, Inc., is a leading Autodesk[®] Value Added Reseller for Manufacturing, Infrastructure, and Building Solutions in the Mid-Atlantic region. Headquartered in Quakertown, Pennsylvania, it is also recognized as an Autodesk[®] Premier Solutions Provider (PSP), Manufacturing Specialist — Autodesk's highest level of authorization. The Engineering Design Solutions Division provides companies in Manufacturing, Government, AEC, and related industries the best quality Autodesk software, training, professional services, and support to ensure their maximum productivity,

competitive business advantage, and return on investment. As an Autodesk[®] Authorized Training Center, Synergis provides onsite customized and classroom training at five convenient locations, taught by Autodesk Certified Experts. For more information on the Engineering Design Solutions Division, visit www.synergis.com or call 800-836-5440.
