Synergis Earns Autodesk Civil Infrastructure Specialization
Platinum Tier Partner Recognized for Expertise in Civil Solutions

QUAKERTOWN, Pennsylvania, May 14, 2013— Synergis Technologies, Inc. today announced that it has earned the new Autodesk Civil Infrastructure Specialization designation for value added resellers from Autodesk, Inc., a world leader in 3D design, engineering and entertainment software. As an [Autodesk Specialized Partner](#), Synergis has shown that they have made significant investment in their people, they have a solid business plan specific to their specialization area, they have customer references, and that they can provide offer a high level of expertise and support to customers in the civil industry.

The new Autodesk Partner Specializations enable value added resellers to highlight and brand their expertise in delivering services in key industry areas. By completing the required curriculum and training, as well as meeting required levels of service and standards set by Autodesk, Synergis demonstrates through their strong customer service and support in sales what it means to be a trusted adviser to Autodesk customers throughout the world.

“We were implementing Autodesk Suites and rolling-out Autodesk AutoCAD Civil 3D companywide when we were awarded a large project,” said Dale Kruelle, Corporate CAD Manager for McTish, Kunkel & Associates. “With the need to meet deadlines in conjunction with the roll-out, we looked to our Autodesk Partner, Synergis, to assist in developing this initiative and deploying the technology in our corporate office. Synergis provided onsite consulting and integration of their engineers into our project team for immediate support and technical expertise.”

“We continue to partner with Synergis on an ongoing basis for technical support and mentoring, allowing us to best utilize the latest technologies and meet deadlines and customer expectations. Most recently, the Synergis applications engineer on site was able to quickly recognize some flaws in our CAD workflow and implement a solution that increased productivity. Synergis is a trusted partner, keeping us informed of industry trends, such as using BIM for bridge projects, and helping reduce risks for our business,” added Mr. Kruelle.

About Synergis Engineering Design Solutions

Synergis Engineering Design Solutions, a division of Synergis Technologies, Inc., provides customers solutions to make them more productive, competitive, and profitable. Synergis is among the most elite of the Autodesk Value Added Resellers and holds privileged recognition as an [Autodesk Platinum Partner](#), Autodesk’s highest level of certification, for the expertise, training and services it provides for the manufacturing, AEC and education communities; Autodesk Consulting Specialized Partner; and Autodesk Authorized Training Center (ATC).
