**Synergis Opens a New Training Center in Maryland
to Meet the Needs of Design Professionals**

QUAKERTOWN, Pennsylvania, September 18, 2012— Synergis Technologies, Inc. today announced the opening of a Synergis Engineering Design Solutions Training Center in Columbia, Maryland. The new location will meet the increased demand for training from the active community of design professionals in the Maryland, Washington DC, Virginia, and Delaware region to help them achieve maximum productivity, competitive business advantage, and a greater return on their Autodesk software investment.

The new training center will enable Autodesk customers in this region to receive onsite customized and classroom training, taught by Synergis' team of Autodesk certified experts, without having to travel to Pennsylvania or New Jersey. The Maryland facility complements the seven other Synergis training locations and is a result of the increasing requests for more local training in this area.

“Synergis’ goal is to help our customers stay ahead, and with our customer base in the Maryland area increasing, it became necessary to open a training center to support these companies,” said Kristen Tomasic, vice president of Synergis Engineering Design Solutions. “This new location allows design engineers in this region to receive the necessary training on the latest Autodesk solutions, and minimizes their time out of the office to do so.”

The location is 8160 Maple Lawn Blvd, Suite 200 and the current training class schedule can be found at www.synergis.com/2012trainingschedule.

About Synergis Engineering Design Solutions

Synergis Engineering Design Solutions, a division of Synergis Technologies, Inc., provides customers solutions to make them more productive, competitive, and profitable. Synergis is among the most elite of the Autodesk Value Added Resellers (VARs) and holds privileged recognition as an Autodesk Platinum Partner, Autodesk's highest level of certification, for the expertise, training and services it provides for the manufacturing, AEC and education communities; Autodesk Consulting Specialized Partner; and Autodesk Authorized Training Center (ATC). Companies in these industries turn to Synergis for Autodesk software, and the highest quality training, professional services, and support available to help them stay ahead. For more information on Synergis Engineering Design Solutions, visit www.synergis.com or call 800-836-5440.
